## METHYLATED SEED OIL

### PRINCIPAL FUNCTIONING AGENTS:

Methylated seed oil and selected emulsifiers .....	100%
<b>TOTAL .....</b>	<b>100%</b>

All ingredients are exempt from tolerance requirements under 40 CFR, 180.

## KEEP OUT OF REACH OF CHILDREN WARNING

May be harmful if swallowed. Causes skin irritation. Causes serious eye irritation. May be harmful if inhaled. Keep out of reach of children. Read label before use. Keep container tightly closed. Keep only in original container. Avoid breathing dust/ fume/ gas/ mist/ vapors/ spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/ protective clothing/ eye protection/ face protection. Take off contaminated clothing and wash it before reuse.

### FIRST AID

**EYE CONTACT - IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing. Have the product container with you when calling a poison control center or doctor, or going for treatment. If eye irritation persists: Get medical advice or attention.

**SKIN CONTACT - IF ON SKIN OR CLOTHING:** Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water for several minutes. Call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice. If skin irritation occurs: Get medical advice or attention.

**INGESTION - IF SWALLOWED:** Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person. Call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice if you feel unwell.

**INHALATION - IF INHALED:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

# MSO

## METHYLATED SEED OIL

### GENERAL INFORMATION

A selected blend of modified vegetable oils and nonionic surfactants, **CLUB LINE MSO** will improve the efficacy of spray applications by aiding infiltration into the waxy cuticle of pests. By bringing the active pesticide ingredients past the surface and into the internal plant tissues, maximized control can be achieved.

### DIRECTIONS FOR USE

Use **CLUB LINE MSO** with any pesticide that calls for MSO, ESO, MVO or other oil-based adjuvants, following the directions for their use found on the pesticide label. In the absence of experience with the combination of products being used, the applicator should perform a compatibility and phytotoxicity test before application. Special care should be used as this product may increase light sensitivity in some species. If the pesticide label does not provide a use rate for MSO, add 1-1/2 to 2 pints of **CLUB LINE MSO** per acre, adjusting as desired for environmental conditions, such as applying in dry dusty conditions or for mature weeds with thick waxy cuticles.

### MIXING INSTRUCTIONS

Always follow mixing order instructions found on the pesticide label.

If instructions are not provided, follow these recommendations:

- 1) Fill spray tank 2/3 or 3/4 full of water.
- 2) Add dry flowables (DF) and wettable powders (WP).
- 3) Agitate until thoroughly dispersed.

4) Add additional active ingredients, adjuvants and **CLUB LINE MSO**.

**Note:** For best results, apply tank mixes that include **CLUB LINE MSO** within 36 hours of mixing.

### STORAGE AND DISPOSAL

**STORAGE:** Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

**DISPOSAL:** Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all federal, state and local regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at [www.acrecycle.org](http://www.acrecycle.org).

### WARRANTY

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk or any such use.
