

Sound Carbon Base for Soil Nutrient Management

Backbone provides a unique tool for soil nutrient management, with longer carbon chains for extended soil and nutrient benefits. Chelated nutrients ensure greater availability and higher plant uptake.

- Improves nutrient and moisture-holding capacity
- Excellent microbial benefits
- Complexed and chelated nutrients are protected from soil and chemical tie-up, increasing response from very low inputs

Pack Sizes:

2x2.5 gal, 55 gal drum

Application Recommendations:

1-3oz/1000 or 32-128oz/ac weekly to monthly on greens, biweekly to monthly on tees, approaches, fairways in a minimum of 1gal/ac.

Carbon Content: 7.67%

Consult your AmeriTurf representative or agronomist for application recommendations for your specific needs.

Guaranteed Analysis

0-0-6

Soluble Potash (K₂O) 6.00%

Magnesium (Mg) 1.00%

Derived from: Potassium Citrate and Magnesium Oxide.
