

P-Release

**FREE PHOSPHORUS
FROM SOIL TIE-UP**

P-Release breaks the chemical bonds that tie-up Phosphorus and Calcium in the soil, as well as complexes mineral elements essential for plant growth, resulting in increased plant uptake of soil nutrients. The purified Humic Acid formulation of P-Release enhances soil structure and microbial activity.

- **Chelates Phosphorus inputs, allowing for lower input rates.**
- **Increases soil ion exchange capacity of the soil, enhancing Nitrogen efficiency.**
- **Promotes positive microbial activity, increasing plant-availability of nutrients in the soil.**
- **Complexing of micro-nutrients improves plant uptake.**

Pack Sizes:
55 gal. drum, 250 gal. tote

*Consult the product label or your AmeriTurf representative
