

A superior choice for potassium nutrition

Component K is specially designed to enhance Potassium uptake and performance, utilizing carbon based technology to maximize turf strength.

- Charger is a soluble carbon technology designed to enhance microbial activity in the root zone.
- Potassium activates enzymes, regulates stomate function and facilitates nutrient and water transport in the plant.
- Component K enhances root development and root mass, increasing your turf's viability in stress conditions and its ability to absorb soil nutrients.
- Very low salt content.
- Provides abundant organic acids.

Use Rate: 3 to 9 oz /1000 sq ft
Pack sizes: 2 x 2.5 gal, 55 gal drum

Application Recommendations:

As a TURF spray application, apply 3 to 9 ounces per 1,000 sq. ft. every 7 to 14 days in at least 50 gallons of water. Apply only as directed.

Consult your AmeriTurf representative or agronomist for application recommendations for your specific needs.
