

Component™

Superb green-up with controlled growth

Component N provides predictable nitrogen technology that is engineered to deliver nitrogen balanced with soluble carbon for optimum efficiency.

- Charger is a soluble carbon technology designed to enhance microbial activity in the root zone.
- Stabilized Urea improves efficiency by reducing volatility and leaching.
- Magnesium is added to support Chlorophyll production, enhancing color and response.
- Multi-source Nitrogen stimulates early green-up for great looking greens.

Use Rate: 3 to 5 oz. per 1000 sq. ft.

Pack sizes: 2 x 2.5 gal, 55 gal drum

Application Recommendations:

Apply 3 to 15 ounces per 1,000 sq. ft. every 7 to 14 days in at least 1 gallon of water. Apply only as directed.

Consult your AmeriTurf representative or agronomist for application recommendations for your specific needs.
