

Stress relief for turfgrass and plants

Component PK enhances stress resistance and provides the nutrients for stress relief, along with elements to encourage controlled growth.

- Combines 15% phosphite and 3% phosphate to alleviate plant stress and enhance overall plant strength.
- Component PK enhances root development and root mass, increasing your turf's viability in stress conditions and its ability to absorb soil nutrients.
- Easy-to-use formulation means more reliable tank mixes and minimizes solubility concerns.

Use Rate: 1-4 gallons per acre
Pack sizes: 2 x 2.5 gal, 55 gal drum

Application Recommendations:

As a TURF spray application, apply 1-4 gallons per acre every 7 to 14 days. Apply only as directed.

Consult your AmeriTurf representative or agronomist for application recommendations for your specific needs.

Guaranteed Analysis

0-3-18

Available Phosphate (P2O5) 3.00%
Soluble Potash (K2O) 18.00%
Derived From: Potassium Hydroxide and Monopotassium Phosphate.

pH 7.0
