

APPLICATION RECOMMENDATIONS

Effective as a direct foliar application or fertigation type product. May be tank mixed or injected with other fertilizers or agricultural chemicals after conducting a jar test for compatibility. Always treat a small test area with any experimental blends to determine potential phytotoxicity before making general applications.

Apply 3 to 9 ounces of Epic ® per 1,000 sq. ft. every 14 to 28 days in at least 1 gallon of water, as needed to maintain healthy turf. Apply only as directed. DO NOT mix with Mancozeb formulations.

SHAKE WELL BEFORE USING

WARNING:Product contains boron. For use on turf and ornamentals only. Do not apply to boron sensitive crops/plants, as it may cause serious injury to that crop/plant. Use only according to manufacturer's directions.
