

APPLICATION RECOMMENDATIONS

Effective as a direct foliar application or fertigation type product. May be tank mixed or injected with other fertilizers or agricultural chemicals after conducting a jar test for compatibility. Always treat a small test area with any experimental blends to determine potential phytotoxicity before making general applications.

Apply 1 to 3 gallons per acre or as required to achieve desired response. If spraying, apply in a minimum of 20 to 30 gallons of water per acre. Apply only as directed.

SHAKE WELL BEFORE USING

Notice to Buyer- This product is intended for uses as a professional plant food, only. Users must exercise all due professional judgment and caution when applying the product under their own particular growing conditions.

Limitations of Warranty and Liability- Green Industries, Inc. and any other seller, warrants only that this product conforms to the chemical description on the product label.
