Micros

The micronutrient package designed to stimulate growth and color.

Iron+Micros contains the combination of Nitrogen, Iron, Manganese, Zinc, and Copper to provide long-lasting color.

- Iron, an essential element for chlorophyll production, enhances color response.
- Includes Sulfur, Copper, Magnanese and Zinc for improved plant color, vigor, and quality.
- Micronutrients enhance resistance to stress and promote effective plant metabolism.
- Formulation includes Nitrogen to facilitate micronutrient uptake.

Pack sizes: 2 x 2.5 gal, 55 gal. drum, 250 gal. tote.

Application Recommendations:

Apply 4 to 12 ounces per 1,000 sq. ft. in at least 1 gallon of water, repeat as needed. Apply only as directed.

TREES and ORNAMENTALS: Apply 2-4 quarts in 100 gallons of water for drench or foliar applications.

Guaranteed Analysis

12-0-0

Total Nitrogen (N).....	12.00%
Sulfur (S).....	4.00%
Copper (Cu).....	0.10%
Iron (Fe).....	6.00%
Manganese (Mn).....	0.50%
Zinc (Zn).....	0.10%

Derived from: Urea, Copper Sulfate, Ferrous Sulfate, Manganese Citrate and Zinc Citrate.
